

New Product Announcement nüvi® 3700 series

Garmin International is pleased to announce the nüvi 3700 series of GPS navigators. Leading the market in PND innovation, the nüvi 3700 series redefines portable navigation with its sleek new design. An overall thickness of 8.7mm makes it the thinnest portable navigator on the market. Viewed in portrait or landscape orientation, the display is a smooth glass design with a crisp 800x480 pixel LCD. This new multi-touch display allows users to quickly make map screen adjustments such as zoom-in and zoom-out by 'pinching' your fingers, change from 2-D to 3-D and rotate the map 360 degrees. Users can also take advantage of premium features such as 3D terrain (3790T), voice-activated navigation (3790T), hands-free calling, lane assist with PhotoReal junction view (currently UK/Ireland only), lifetime pan-European traffic (T models) and nüRoute™ technology. Voice prompts while driving come through clearer than ever because of a secondary speaker located on the powered mount, offering the highest sound quality.

Product Features and Specifications

- Sleek, light and ultra-slim design which fits easily in your pocket
- Easy-to-use, attractive 4.3" smooth glass display with portrait and landscape modes
 - Ø New gesture-style touch display allows users to quickly make map screen adjustments such as zoom-in and zoom-out by 'pinching', plus change from 2-D to 3-D and rotate the map 360 degrees
 - Ø Screen lock/standby – simply tap the power button, slide nüvi into your pocket and go
 - Ø Customizable wallpaper
- Voice-activated navigation – set up a name such as 'call me angel', speak the words and the nüvi will switch to voice control. Simply tell the nüvi where you would like to go, without touching the screen (nüvi 3790T only)
- 3D terrain – navigate while viewing map contour shades, available at new low zoom levels (nüvi 3790T only)
- 3D buildings and landmarks - see 3-D buildings and landmarks on the map as you drive for enhanced situational awareness (nüvi 3790T only)
- Lane assist with PhotoReal junction view – navigate with confidence while nüvi directs you to the preferred lane; view realistic images of upcoming junctions where available (PhotoReal junction view is currently available in UK/Ireland only; other locales will have traditional junction view)
- Route planner – plan and save routes with multiple via points, automatically sort your destinations for the most efficient route
- Pan-European subscription-free traffic included (T models only)
- nüRoute with trafficTrends™ and myTrends™
 - Ø trafficTrends™ – improves recommended routes and estimated time of arrival using history Garmin has collected about traffic at the particular time of day and day of the week
 - Ø myTrends™ – using your driving habits, nüvi will predict your destination without you activating a route, providing your arrival time and relevant traffic information
- Bluetooth® wireless technology – enables hands-free calling with a compatible phone
- All models include turn-by-turn directions with spoken street names – "Turn right on Main Street"
- ecoRoute™ – drivers can view suggestions for fuel-efficient navigation, conserving both money and fuel. The 3700 is also compatible with the ecoRouteHD accessory
- Public transit – navigate using buses, tramway, metro and suburban rail systems with optional cityXplorer™ content. Download at <http://www.garmin.com/cityxplorer>
- Speed cameras with speed limit indicator
- Garmin Connect™ Photos – associate your favorite images with saved locations. Visit <http://connect.garmin.com> for additional information
- "Where Am I?" feature – find the closest hospitals, police stations, gas stations, nearest address, intersection and coordinates
- Auto time zone – nüvi will automatically adjust your time zone while navigating
- High-sensitivity GPS receiver with HotFix™

- Trip computer records mileage, max speed, total time and more
 - Park position recall
 - Built-in travel kit includes features such as picture viewer, world clock, currency converter, measurement converter and calculator
 - microSD™ memory card expansion slot
 - Includes Garmin Lock™ anti-theft feature
 - Configurable vehicle icons – allows users to select fun, customized car-shaped icons; download additional choices from www.garmin.com
 - Offers a 3-D mapping perspective, or 2-D overhead view
 - Unit dimensions: 4.79"W x 2.85"H x 0.35"D (12.2 x 7.2 x 0.9cm) ; Weight: 4 ounces (113.4g)
 - Built-in lithium-ion battery – lasts up to four hours depending on usage, standby mode can be several weeks
 - Powered suction cup mount with speaker – easily adjust or remove nüvi from the mount and hear directions through a high-quality secondary speaker
 - Simplified PC connectivity, using USB mass storage, access either the microSD card slot or the unit's internal memory directly from your PC desktop
 - POI loader program – set up proximity alerts for school zones, create custom POIs and more
 - The map data is provided by NAVTEQ, a world leader in premium-quality mapping
