

New Product Announcement

Motorcycle navigator with lane assist and spoken street names

z mo[®] 220

Garmin International is pleased to announce a new addition to the z mo family: the z mo 220 GPS motorcycle navigator. The z mo 220 is a wallet and designed to fit smaller bikes that do not have a lot of room. It features a 3.5" colour touchscreen that is both rugged and waterproof. A motorcycle mount with hardware and an automotive mount are included, so your z mo is ready to navigate right out of the box.

The z mo 220 offers full coverage mapping for Europe. The preloaded map data features up to 1.7 million points of interest, including hotels, restaurants, petrol stations, cashpoints and attractions. The unit also comes with the City Navigator Europe NT DVD in the box. The map data is provided by NAVTEQ, a world leader in premium-quality mapping.

Product Features and Specifications

- Bluetooth wireless technology– spoken directions via your headset
- Lane assist – z mo directs you to the preferred lane while driving.
- High-sensitivity GPS receiver with HotFix™ – z mo has faster satellite acquisition times
- High-resolution, glove-friendly 3.5" touchscreen display
- Rugged, waterproof design (IPX7) – resistant to fuel sprays and UV rays
- Turn-by-turn directions with spoken street names – “Turn right on Main Street”
- Motorcycle console for trip information, including a digital fuel gauge to warn you when it's time to fill up
- Advanced route preview and trip logs with up to 10 saved routes – can automatically arrange via points to minimize trip distance
- Preloaded street maps – includes detailed maps for Europe
- "Where Am I?" feature – find the closest hospitals, police stations, petrol stations, nearest address and intersection. Also see your exact latitude and longitude coordinates.
- Speed limit indicator – unit displays speed limits for highways and interstates
- Auto time zone – z mo will automatically adjust your time zone while navigating
- Garmin Connect™ Photos – associate your favorite images with saved locations and visit Garmin Connect at <http://connect.garmin.com> to download new images with included coordinates
- DEM maps – show you shaded terrain contours at various zoom levels
- Removable lithium-ion battery – up to 8 hours depending on usage
- Trip computer records mileage, max speed, total time and more
- Customize with voice directions from friends and families using Garmin Voice Studio™
- Built-in travel kit includes features such as picture viewer, world clock, currency and measurement converters and calculator
- Includes Garmin Lock™ anti-theft feature
- Simplified PC connectivity using USB mass storage
- With the POI loader program, users can set up proximity alerts for school zones, safety cameras, create custom POI's and more
- Configurable vehicle icons – select fun, customized icons from www.garmingarage.com
- microSD™ card slot for optional mapping and data storage
- Unit dimensions – 4.21"W x 3.35"H x 0.9"D (10.7 x 8.5 x 2.3cm)
